

Professional Summary

Motivated and hardworking T-Level student in Digital Software Development at Bournemouth & Poole College, consistently achieving high grades. As a student representative, I work with my peers to bring positive change to college life. I have a strong passion for all things software development and ethical hacking, where I spend my time improving and adding these two different skill-sets to not only build solutions with software but to also break them apart to make them better, more secure and safe.

Education
